Advisory

An annual analysis of 2023 lobbying spending trends will be released at 10 a.m. Tuesday March 12, 2024.

For the first time, the annual analysis will include a ranking of the most heavily lobbied legislation during the 2022-23 session, which ended in mid-January.

A summary spreadsheet of 2023 annual lobbying expenditures plus other associated tables and charts also will be made available on ELEC's website.
